

2018 ODC NETWORK Annual Impact Report

Dear Friends,

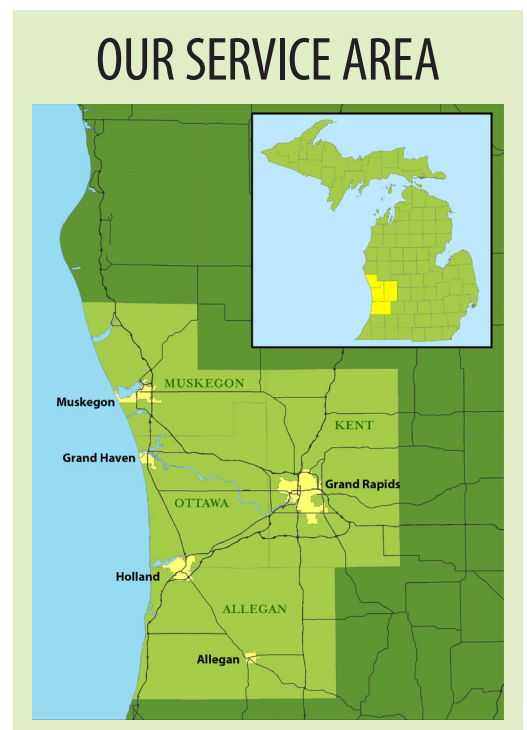

I am proud to share that the ODC team experienced in 2018 another year of growth within all aspects of our organization. Highlighted by our name change to ODC Network—a move to better reflect the diverse set of business divisions, we are meeting our mission and goals.

We are grateful for the increased achievements because it not only illustrates value added to West Michigan, but it also illustrates the support and dedication we receive from the communities we serve. As a nonprofit organization, we keep the needs of the community centered around the services we provide and maximizing the contributed resources of our stakeholders.

I am very proud to live, work and recreate in West Michigan. The values of this community and the many differing faces that make it unique drive our staff, board members, and volunteers to work hard at educating children and families, protect and connect natural resources, and preserve the environmental quality of the community. I hope you will continue to join us in making a difference in Connecting People, Land & Nature.

I would like to say THANK YOU to our amazing staff, board of directors, donors, and volunteers for their investment in, and commitment to, our mission and vision.
