

Tri-Communities  
**Rain Barrel  
Scavenger  
Hunt**

SAUGATUCK  
CENTER FOR THE ARTS

2023

# Why Install Rain Barrels?

**Protect the Kalamazoo River Watershed from pollution.**

Barrels within each of these communities will be used to capture stormwater and repurpose it for watering flower beds and landscaped areas.

**Enhance community with an outdoor, public art installation.**

In partnership with Saugatuck Center for the Arts, works by local artists will be featured on each of the barrels.

## How to Start Your Adventure

This scavenger hunt will guide you to 17 barrels located in the Tri-Communities area. Be sure to find the sign by the rain barrel at each location and check out the local businesses supporting this project!

**1** Visit some barrels & businesses

**2** Find the letters on each of the signs

**3** Write the letters into the word puzzle for each business on their page

**4** Collect your reward!

Prizes available to those who complete all three of the word puzzles and turn this booklet in at Saugatuck Center for the Arts before August 30 (while supplies last).

**The ODC Network**, a 501(c)(3) education and conservation organization, is a collection of business divisions managing two interpretive centers, two greenways, three nature-based preschools, multiple conservation initiatives, and global travel programs. ODC's mission is to advance outdoor education and conservation in West Michigan.
